ABOUT ME

Computer Engineering student with a strong interest in software development and the creation of efficient technological solutions. I am actively seeking to gain experience in a professional environment that allows me to apply and expand my programming skills.

SKILLS

Technical: Python, C, C++, Java, Spring Boot, PHP, Linux, SQL, Docker, CSS, HTML, JavaScript, TypeScript, Flutter, Git, GitHub

Soft: Teamwork, Communication, Problem Solving

PROJECTS

Agenda AI

- Full-stack AI-powered agenda for task and event management.

Cafeteria Management System

- Web app with SQL database for inventory and operations.

Algorithm Analysis

- Python tool for sorting algorithm analysis and visualization.

Crop Mapping System (NASA Hackathon)

- Geo-based web app to optimize crop planning.

EDUCATION & TRAINING

B.Sc. Computer Engineering

Mixteca University of Technology (2021 - Present)

Oracle Next Education (Back-end)

ALURA

Oracle Certified Foundations Associate

ORACLE
